

"Q" VALVE SPANNER WITH HANDLE

EGA Master Non-Sparking tools are the best alternative for applications in explosive environments. The non-sparking "Q" type valve key is ideal for various explosive or easily combustible atmospheres, such as marine work or firefighting applications.

1. Consists of an **upper hook and a jaw** connected to the handle. The hook grips the valve, while the lower jaw closes against the outer circle of the valve, thus achieving **grip and handling of the valve**.

2. With a handle for better grip and comfort.

3. With a **hardness of 311-408 Brinell (Cu-Be) and 241-311 Brinell (Al-Bron)**.

"Q" VALVE SPANNER WITH HANDLE

COD.	MAT.	COD.	MAT.	L (mm)	Ø x (inch)	
36950	Al-Bron	36951	Cu-Be	215	3"-7"	350
36952		36953		400	8"-15"	900
36954		36955		550	16"-20"	1900

Cu-Be Beryllium copper
