

NON-SPARKING VALVE WHEEL HOOK

EGA Master Non-Sparking tools are the best alternative for applications in explosive environments. The non-sparking valve turner hook is designed to work in explosive atmospheres, such as those found in the oil, gas, mining, chemical, etc. sectors.

1. For opening or closing valves in the form safe in environments with risk of explosion.

2. With a hardness of 311-408 Brinell (Cu-Be) and 241-311 Brinell (Al-Bron).

COD.	MAT.	COD.	MAT.	L (mm)
