

HOOK SPANNERS

EGA master hook spanners are ideal for assembling and disassembling small bearings adjusted by nuts in potentially explosive environments.

1. Minimize the risk of damaging the nut or shaft.

2. Available sizes from 12-14mm to 135-145mm.

3. With a hardness of 311-408 Brinell (Cu-Be) and 241-311 Brinell (Al-Bron).

COD.	MAT.	COD.	MAT.	L (mm)	CAP. (mm)	
71392	Cu-Be	71409	Al-Bron	105	12 - 14	40
71393		71410		110	16 - 20	50
71394		71411		130	25 - 28	80
71395		71412		170	30 - 32	100
71396		71413			34 - 36	
71397		71414			40 - 42	
71398		71415		200	45 - 50	150
71399		71416			52 - 55	
71400		71417			58 - 62	
71401		71418		230	68 - 75	200
71402		71419		250	80 - 90	500
71403		71420		280	90 - 100	600
71404		71421		300	95 - 100	700
71405		71422		310	100 - 110	800
71406		71423		330	110 - 115	900
71407		71424		340	120 - 130	
71408		71425		350	135 - 145	

Cu-Be Beryllium copper
Al-Bron Aluminium bronze
