

NON-SPARKING STRAP WRENCH

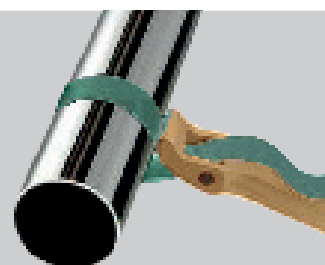

The EGA Master non-sparking strap wrench is the ideal solution for work in explosion-risk environments, allowing for a quick grip on pipes without damaging the surface.

Easy to use!

1. Non-sparking strap wrenches are specifically designed to tighten and loosen pipes without marking their surface (pipes, fittings, chrome-plated fixtures, PVC, etc.) in explosive atmospheres.

2. Capable of gripping pipes up to 3".

3. With a hardness of 311-408 Brinell (Cu-Be) and 241-311 Brinell (Al-Bron).

COD.	MAT.	COD.	MAT.	L (mm)	CAP. (inch)	
73906	Cu-Be	73907	Al-Bron	300	3	800

Cu-Be Beryllium copper
Al-Bron Aluminium bronze
