

NON-SPARKING BOLT CUTTERS

EGA Master Non-Sparking Tools are the best alternative for non-sparking application purposes in potentially explosive environments. All tools are forged after casting to achieve the best quality in the market, both in mechanical properties and attractive finishing.

EGA Master manufactures a wide range of non-sparking tools among which you can find bolt cutters, perfectly designed and manufactured to cut cylindrical rods, formwork rods, wire meshes, cables, bolts, etc.

1. With a hardness of 311-408 Brinell (Cu-Be) and 241-311 Brinell (Al-Bron).

1. Special design that allows cutting rods, bolts, etc. at a very short distance from the surface from which they protrude.

1. With handle for greater comfort.

Great capacity cutting!
