

ADJUSTABLE WRENCH

The EGA Master adjustable wrench is a non-sparking tool made with ACETILEX® alloy, ideal for environments with risk of explosion.

ACETILEX

1. Greater durability and resistance in demanding industrial conditions.

2. Designed to tighten nuts and bolts of different sizes without having to change tools.

3. With a hardness of 255-285 Brinell. Tensile strength: 900N/mm².

COD.	L (inch)	
79452	6	135
79453	8	280
79454	10	440
79455	12	720
